Welcome to Polk School District.
We’re excited to have you join our school system. PSD Central Office registers the following students:

- Students new to Polk County
- Students who have been withdrawn from a Polk County school for longer than 10 school days

Note: Students transferring from one PSD School to another do not need to register through the Central Registration. Parents requesting a zone transfer must request and complete a zone transfer form and submit it at the attending school.

Registration: Parent/guardians must visit the PSD Central Office to complete all required forms, provide the required documentation, and submit verification of the family’s address. The family will register all of their school-aged children during this one visit. Parents are encouraged to fill out and print the forms online and present them at the time of registration. Forms can be found on the Polk School District website at www.polk.k12.ga.us

- Registration is not by appointment. Parents may experience a long wait time.
- Registration during summer hours are weekdays from 9:00 – 12:00; and 1:00 -3:00.
- Starting July 28th, registration will be open from 9:00 - 12:00; and 1:00 - 4:00.

School-specific information: When school begins, students will receive additional information and forms unique to the school. These forms must be completed and turned in to the school in order to complete the enrollment process.

Thank you for choosing Polk School District.
