**Just a Reminder**

Head lice is not gotten rid of just overnight or after one treatment. It takes determination to break the cycle by shampooing and “nit picking” to rid an individual of these pesky parasites. Also remember to wash towels, clothing and begging, as well as vacuum furniture, floors/carpets. Sometimes a second treat is needed 6-7 days from the first treatment. Overall, the best advice is to check regularly especially if you notice your child complains of an itchy head or you notice frequent scratching.

**Character Word of the Month**

**September: Friendship**

We want our students to make many lasting friendships during their years at Westside!

Friendship ~ using your words and actions to show someone else you care.
